FREE TOBACCO

Removal of Six Cent Tax a Great
Victory Alike For the Farmer
and Senator Bradley

The removal of the restrictions on the free sale of leaf tobacco in the hand, as provided for in the amendment of Senator Bradley, which was adopted by the Senate, arouse a much interest, and is the result of many years' agitation and of much active recent campaigning.

It is a live question in the tobacco growing States and has been the subject of many representations to Congress.

The prohibition of the present law preventing freedom in the trade in tobacco in the primitive state is said to have been responsible for the forays of "night riders" in Kentucky and Tennessee.

The present law permits the tobacco grower to dispose of his product, but does not allow his vendee to transfer it without paying a tax of 6 cents a pound.

LAST year a certain State Legislature appropriated \$70,000 for stamping out disease among the domestic animals of the State and \$10,000 for the prevention of tuberculosis among the people. And yet in this same State the money cost of consumption amounts to \$8,000,000,000 each year. Other legislative bodies, including even the Congress of the United States, are guilty of the same sort of inconsistency—putting it mildly. It is time for the people to demand of their legislative servants that more fitting recognition be given to health matters and more money appropriated for the work of promoting and protecting public health.—Chicago Tribune.

THE largest business enterprise in the world is that of our Postal Department. It employs over 320,000 persons, a force as large as some of the standing armies of Europe. Last year more money was paid to the railroads for carrying the mails than would have been required to meet the entire expenses of the Government 50 years ago. The amount was \$42,000,000, and the mileage covered by the mail sacks was 372,000,000. Over 11,000,000,000 separate pieces of mail were received and carried to their destination.

THE United States is not alone in the record of smaller imports and smaller exports which will characterize the history of our foreign commerce in 1908. Of the twenty-five principal countries of the world whose foreign commerce the Bureau of Statistics of the Department of Commerce and Labor records month by month and year by year, all but four show a falling off in exports and nearly two-thirds show a falling off in imports.

THE STATE UNIVERSITY

LEXINGTON, KY.

The State University, Lexington, Kentucky, offers the following courses, namely, Agricultural, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Chemical and seven Scientific courses each of which extends over four years and leads to a Bachelor's Degree; also a Department of Law and a Department of Education, which last has been established instead of the Normal School. Persons who enter this department prepare for advanced work in pedagogy and are granted a Bachelor's Degree in this subject when completed. The Academy for preparatory instruction is retained.

County appointees receive free tuition, privilege of residence in the dormitories, fuel and light, traveling expenses, if they remain ten consecutive months, or one collegiate year.

The laboratories and museum are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress.

The graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates for last year was 1078. Each department has a specialist at its head, with the necessary number of assistants.

Young women find an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all the modern conveniences, bathroom, hall for physical culture, at \$3.00 per week. All courses of study in the University are open to women on identical conditions with those applying to males.

The completion of the Agricultural, Mining Engineering Laboratory and Education Buildings afford ample and commodious quarters for these departments, which are rapidly increasing in the number of matriculates.

NATURE'S WARNING.

Maysville People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously. But nature always warns you. Notice the kidney secretions. See if the color is unhealthy—If there are settlements and sediment. Passages frequent, scanty, painful. It's time then to use Doan's Kidney Pills. To ward off Bright's disease or diabetes. Doan's have done great work in this locality. James W. Cottingham, East Second street, Vanceburg, Ky., says:

"About two years ago my back became lame and I had almost constant pain across my loins. It was all I could do to drag one foot after another and I was actually too weak to work. The kidney secretions were scanty and I had a difficulty in passing them. I was laid up at one time for a month and could not leave the house. When Doan's Kidney Pills were recommended to me, I procured a box and began their use. My kidneys were soon restored to their normal condition, I became strong and have had no trouble since. It gives me the greatest pleasure to recommend Doan's Kidney Pills to other persons suffering from kidney complaint."

What the Great Operatic Artists Are Doing

Great artists like Melba, Calve, Eames and others devote a much care to the preservation of their physical beauty as to the development of their voices. Hair and complexion demand the greatest care. A smooth, velvety and rosy complexion in connection with a luxuriant head of hair will transform the most commonplace looking female into an attractive and fascinating woman.

Women in professional life thoroughly understand this fact. How often we hear the expression, "What a beautiful head of hair," or "What a lovely complexion," etc. Take a woman for instance, of fifty years, whose hair has become streaked with gray. If she thoroughly realized that Q-Ban Hair Restorer would restore her hair to its youthful beauty and abundance, what would she not pay to become possessed of it, and if she knew that applications of the Restorer to the face would remove all pimples, blotches, etc., and improve the complexion a hundred fold, beside making her appear fifteen years younger, would she use it? Dr. Nott says that he never in his entire practice, failed in one single instance to restore gray hair to color, depending solely upon Q-Ban Hair Restorer, and that for diseased conditions of the scalp, falling hair, dandruff, etc., or to increase the growth of the hair, the Q-Ban Hair Tonic was always to be relied upon. All druggists have it for sale. Try it. If you use six bottles and the results are not as claimed, your druggist will refund you your money.

J. Jas. Wood & Son recommend and sell these preparations. If you are gray haired or your hair commencing to fade you can have the first bottle of Q-Ban Hair Restorer free. Simply call and ask for it.

For sale at all druggists.

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

It hasn't rained for seven hours.

SOCIAL EVENTS

Mrs. C. B. Pearce of Front street has been having a reunion of her brothers and sisters at her home the past week. There are eight of them, four brothers and four sisters—I. B. Hughey of Columbus, O., F. L. Hughey of Topeka, Kansas, C. M. Hughey of Denver, Col., and J. E. Hughey, who is a resident of our town. The sisters are Mrs. A. Judd of St. Joseph, Mo., Mrs. R. A. Work and Miss Callie Hughey, who each make their home with her. It is the first time in forty-three years they have been together at one time. It has been a most enjoyable affair and one long to be remembered by each one.

Two of the brothers, I. B. and F. L. Hughey, left for their respective homes this morning, while Mrs. Pearce and the remaining ones will leave tomorrow for Ruggles Campgrounds for a few weeks rest and recreation and to be present at the Campmeeting to be held there soon.

FEARIS.

Hay and oat harvest are in full blast. Corn and tobacco crops are looking very well.

The weather seems to change as often in summer as it does in winter.

Rev. Davenport gave out Sunday that Mower Park Campmeeting would begin August 26th.

E. B. Fearis was up from the city last week visiting his parents and friends.

Mr. Alva West of Cincinnati was here Saturday and Sunday visiting his mother.

John H. Cox of Chalk Ridge claims to have three hundred bushels of oats on an old rock and brier field.

If it took Uncle Sam as long to raise an army in 1861-5 as it does for him to do some things now days, he would have got a h-l of a whipping in a very short time.

Croton Post G. A. R. will spare all the time and expense it can to make the annual reunion a success this year—August 13th and 14th. It has several speakers and good Preachers already promised to take part. Would like to have THE LEDGER Editor and Comrades Thomas A. Davis, M. C. Hutchins and John Walsh with us this year. Come up, boys, and take part with us. It won't cost you anything for Hotel bills.

DON'T

Don't let the bargain counter man, the traveling humbug, who stays one week only, the man who knows all trades and all professions or the man who only fits glasses when he has nothing else to do, talk you into buying a pair of glasses for your child.

Get them for yourself if you want to. The loss of your eyesight might help you to realize that there is something in properly made and scientifically adjusted glasses. Take your child to a recognized specialist.

MORRIS—RUDY.

Miss Jennie M. Rudy and Mr. Thomas A. D. Morris, formerly of this city, stole a march on their Kansas City friends and were married at Osage City, on Monday, July 5th.

They will make their home at Emporia, Kas.

Kirk & Kirk, the hustling proprietors of the Second street implement house, have added automobiles to their already complete stock. They now have on display a fine \$1,000 Buick machine which they use especially for their friends and customers. Mr. E. T. Kirk, the handsome and genial senior member of the firm, will take delight in taking you a spin around the city. Call in.

Dr. P. G. Smoot has purchased the residence in East Second street, Sixth Ward, of the late Orlando Cox, for \$3,700 and other considerations, and will soon occupy it as his residence.

Mr. C. L. Rosenham is reported quite ill at his home in West Fourth street.

Danderine

EVERYBODY CAN HAVE BEAUTIFUL HAIR NOW, and they don't have to wait weeks and months for results either. You will notice marked improvement after the very first application.

Grows Hair and we can PROVE IT!

Danderine is quickly and thoroughly absorbed by the scalp and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities. It is pleasant and easy to use—simply apply it to the scalp and hair once a day until the hair begins to grow, then two or three times a week till desired results are obtained.

A lady from California writes in substance as follows: "I have been using your wonderful hair tonic for several months and at last I am now blessed with a wonderful suit of hair that measures over 18 inches in length; the braid is over 8 inches around."

Another from New Jersey: "After using sixth bottle I am happy to say that I have as nice a head of hair as anyone in New Jersey."

This Great Hair-Growing Remedy can now be had at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

Free Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the Knowlton Danderine Co., Chicago, with their name and address and 3c in silver or stamps to pay postage.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair. Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Messrs. Wells, the Market street wholesale and retail liquor merchants, have bought the sale and livery establishment of Mr. George Pollitt in East Third street. Mr. Harvey Wells will have charge of the business. THE LEDGER generally delivers the goods, the sale being the result of a small item published in its columns yesterday.

A good deal of the Turkish tobacco is made up in Hungary for the American cigarette trade. In one factory in Flume, Hungary, in the last year, 371,000,000 cigarettes were manufactured. Some of the tobacco came from Brazil, Java and Sumatra.

It costs five cents a pound to produce poultry. This is about what it costs to produce a hog, live weight. The hog loses at least 30 per cent. in dressing and the chickens or turkeys about 10 per cent. It is cheaper to eat poultry than pork, you see.

While other forms of Artificial Lighting have been content to twitter with bird-like repetition "cheap, cheap, cheap," Electric Light has been loudly singing the praises of its sun-like glow and whiteness. Stamped on the public mind as the "Light of Quality," with the advent of the Tungsten Lamp it now challenges comparison of efficiency and cost.
